PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building production ERP systems across healthcare, hospitality, retail, and distribution industries. Proficient in React.js, Node.js, Express.js, MongoDB, PHP, and MySQL, with hands-on exposure to REST APIs, JWT auth, RBAC, and integrations (biometric devices, WhatsApp API, Tally, payment gateways).

TECHNICAL SKILLS

- **Languages:** JavaScript, Java, PHP, C++, SQL
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Chart.js
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, PHP
- **Databases & Mobile:** MongoDB (Mongoose), MySQL, SQL, PL/SQL, React Native (iOS/Android)
- **Tools & Integrations:** Git/GitHub, Postman, ZKTeco/Hikvision biometric APIs, WhatsApp Business API, Tally, Nodemailer, jsPDF/xlsx export

PROFESSIONAL EXPERIENCE

Software Developer | Aalan Tech Soft, Salem

Oct 2025 – Present

- Promoted to full-time after a 2-month internship. Built and maintained multiple production ERP systems for clients across healthcare, hospitality, retail (jewellery), and distribution, using React.js, Node.js, Express.js, and MongoDB.
- Designed and developed REST APIs and MongoDB/MySQL schemas for modules including billing, inventory, HR & attendance, patient/appointment management, and pharmacy stock.
- Integrated biometric attendance hardware (ZKTeco/Hikvision) and geolocation-based mobile clock-in/out into HR attendance workflows.
- Implemented JWT authentication and role-based access control (Admin/Manager/Staff) across multiple ERP products, and built a cross-platform React Native field-operations app for dealer/carpenter workforce management.
- Collaborated with a small team to ship production-ready features on deadline, integrating WhatsApp Business API, Tally accounting sync, and payment gateways.

Full Stack Java Developer Trainee | JSpiders, Bangalore

Jan 2024 – Nov 2024

- Completed intensive full-stack Java training covering Core Java, OOP, SQL, and web development fundamentals.

Java Developer Intern | Shiash Info Solutions, Chennai

Sep 2023 – Dec 2023

- Completed a 3-month internship building Java-based applications and gained foundational experience in the SDLC.

KEY PROJECTS

Harwin ERP — Dealer & Field Operations App — React Native, Node.js, Express, MongoDB

- Cross-platform (iOS/Android) app for leads, quotations, estimates, orders, invoicing, and stock/warehouse tracking, plus a geolocation + selfie-based clock-in/out flow for field workers with job assignment and salary tracking.

Hospital Management ERP — React, Node.js, Express, MongoDB, Gemini AI

- Built modules for patient records, appointments, pharmacy stock, billing/fee management, HR & payroll, and biometric attendance sync, plus Gemini AI-assisted features and role-based dashboards for doctors, staff, and admin.

Jewellery ERP (Tripur Jewellery) — React, Bootstrap, PHP, MySQL

- Digitized manual jewellery business operations — sales, purchases, inventory, retailer/customer records, loans, and chit-fund tracking — with secure CRUD operations and role-based authentication.

Training Institute ERP — React, Node.js, Express, MongoDB

- Built modules for student admissions, course & fee management, lead tracking, placements, and staff/HR (attendance, leave, payroll).

EDUCATION

Bachelor of Computer Applications (BCA) — Jairam College of Arts and Science, 2023
