Ikramullah R

Intern Trainee - Full Stack Developer

Enthusiastic and dedicated Full stack developer Intern in programming languages like Java, HTML, CSS, Java Script, Php etc., and with the Databases SQL, PLSQL. Skilled in problem-solving, teamwork, and eager to contribute to dynamic projects and gain practical knowledge in software development. Seeking for an opportunity to learn and grow in an organization which can utilize my knowledge and skills effectively.

Experience

AALAN TECH SOFT SALEM-(OCT 2025 - PRESENT)

- Promoted to Full-Time Software Developer after successfully completing a 2-month internship
- Developed and maintained ERP modules using React, Bootstrap, Node.js, Express, MongoDB
- Built responsive UI components and reusable React components
- Gained hands-on experience with REST APIs and database design
- Collaborated with the team to deliver production-ready features within deadlines

SHIASH INFO SOLUTIONS- (SEPT 2023-DEC 2023) | Chennai.

- Completed three months of internship as Java developer at Shias info solutions at Chennai.

JSPIDERS - (JAN 2024- NOV 2024) | Bangalore.

Full Stack Java Developer training at Bangalore.

Project

Weather web-Application

- Technologies: HTML, CSS, JavaScript, Tailwind CSS
- Developed a responsive web-Application to display weather data for various cities
- Implemented user-friendly interface with real-time data fetching
- Utilized Tailwind CSS for streamlined styling and design

Hotel Management (Erp).

- Technologies: React, Bootstrap, Node.js, Express.js, MongoDB (Mongoose)
- Designed and developed a full-stack Hotel Management ERP system to manage daily hotel operations
- Built responsive frontend using React and Bootstrap for role-based dashboards
- Developed RESTful APIs using Node.js and Express.js
- Implemented MongoDB data models using Mongoose for efficient data handling
- Modules include food lits, combo offers, retailer details, supplier details, customer details, billing, and reports etc...
- Implemented authentication and authorization for admin and staff users

Leadership

C e r t i f i c a t i o n s

- Full Stack JAVA Internship completion Certificate at Shiash Info Solutions
- Project Completion Certificate at Shiash Info Solutions
- Full Stack Java Developer Training Certificate at Jspiders
- Intership completion Certificate as a Software Developer at Aalan Tech Soft

Jewellery(ERP)

- Technologies: React, Bootstrap, PHP, MySQL
- Designed and developed a Jewellery ERP system to manage business operations
- Built responsive user interfaces using React and Bootstrap
- Developed backend functionality using PHP and SQL for data management
- Implemented modules for product inventory, sales, exchanges, customer records, retailer records, billing, and reports etc..
- Created secure CRUD operations and database queries for transactional data
- Improved operational efficiency by digitizing manual jewellery management processes
- Implemented secure authentication and role-based authorization, allowing Admin to manage Manager and Staff access dynamically
- Designed relational database schemas and enforced data integrity across ERP modules

Professional Skills

- Having knowledge on front-end and back-end solutions for web-based and Android/iOS/Windows applications.
- Strong knowledge in front-end technologies such as HTML5, CSS3, JavaScript (including frameworks like React), and responsive web design principles.
- Solid understanding of back-end technologies such as Node.js, or Java, along with experience working with databases (e.g., SQL or Mongoose).
- Design and implement scalable and performant back-end services and APIs.
- Utilize C++, Java, HTML, and CSS to create robust applications.
- Preferably deploy applications using Android and iOS SDKs.
- Write clean, maintainable, and well-documented code.
- Troubleshoot, debug, and resolve issues across the full stack of the application.
- Participate in the entire software development lifecycle, including planning, development, testing, deployment, and maintenance.
- Conduct code reviews and provide constructive feedback to peers.
- Continuously seek out innovative solutions and improvements for the mobile applications and development processes.
- Passion for learning and staying up-to-date with the latest industry trends, technologies, and best practices in mobile and web development.
- Collaborate with designers, product managers, and other developers to create seamless and engaging user experiences.
- Ensure the mobile applications are responsive, user-friendly, and optimized for performance.
- Ability to work in a team environment and collaborate effectively
- Strong problem-solving skills and attention to detail
